COLLECTION

TEAM Collection

OUR IDEAS FOR YOUR PROJECTS

Per un ambiente ufficio che sia attuale, elegante e funzionale al tempo stesso, Codutti ha progettato le collezioni Team.

L'ufficio moderno è sempre più dinamico, versatile, aggregante. Il fattore puramente tecnico operativo è importante, ma è l'uomo a essere al centro. Da qui la necessità di creare un ambiente accogliente e motivante nelle forme, nei colori e nell'ergonomia, orientandosi, con sempre maggiore attenzione, al benessere di chi ci lavora.

Un lay-out dinamico sempre in evoluzione come le sfide del tempo reale, soluzioni originali per la condivisione degli spazi: questo promettono le collezioni Team.

For an office environment with a contemporary feel, elegant and functional at the same time, Codutti has designed the Team collections.

The modern office space is increasingly dynamic, versatile and unifying. Its purely technical and operational aspect is important, but people are the focus and that makes it necessary to create welcoming surroundings with motivating designs, colours and ergonomics, where the target has increasingly been shifted to the wellbeing of those who work there. A dynamic, constantly evolving layout, in line with real-time challenges; original space-sharing solutions: this is what the Team collections have to offer.

TEAM Collection

Team è minimalismo interpretato in chiave di essenzialità di pregio, ottenuto con le più attuali tecnologie di progettazione e di lavorazione e l'utilizzo dei materiali più coerenti con le esigenze di ergonomia, sicurezza, riciclabilità e manutenzione.

La cura dei particolari, la ricerca di colori e accostamenti, le cinque proposte geometriche per i supporti del top, danno vita a una nutrita gamma di proposte che permettono la personalizzazione di qualsiasi spazio ufficio.

Per un insieme duttile e completo, che dia una risposta a ogni esigenza, Codutti ha progettato Team, facendo tesoro della sua esperienza di oltre sessant'anni nel campo dell'arredamento.

Minimalism, interpreted in terms of prestigious simplicity, created using the very latest design and machining technologies, and materials in line with the needs for ergonomics, safety, recyclability and maintenance.

Attention to detail, and research into colour and combinations, together with five different available top shapes, has given life to a rich range of ideas to customise any office space.

For end results that are both ductile and complete, with an answer to every requirement, Codutti has designed Team, based on its over sixty years of experience in the furniture industry.

Il Programma TEAM

Progetto di arredo operativo vasto e articolato, pensato per dare una risposta alle più svariate esigenze tecniche ed estetiche. Cinque versioni, dalle linee attuali e nello stesso tempo tradizionali.

La Pannellata ha il fianco in melaminico collegato al top tramite un distanziale in inox lucido. I fianchi a Ponte e Anello in tubo rettangolare sono verniciati così come quelli a T rovesciata. Completa la gamma la Conica, con gambe a sezione semiellittica in acciaio stampato.

Lavoro di squadra con il system bench dal fianco a Ponte o Conico: postazioni dotate di schermi —anche in stoffa— vano tecnico in alluminio satinato, lampade, porta monitor...

Garantite funzionalità, estetica ed ergonomia.

The TEAM Program

Vast, well-designed operational furniture, designed to be the answer to a host of technical and aesthetic requirements. Five versions, with current styling that manages to remain within the realms of tradition.

Panelled has a side in melamine, connected to the top via polished stainless steel spacer. The Bridge and Ring in rectangular piping are painted, as per the one overturned T leg. The range is completed by Conical, with semi-oval legs in moulded steel.

Teamwork with the bench system alongside Bridge or Conical: workstations with screens —including in fabric —lamp, monitor stand... technical compartment in satin-finish aluminium.

Guaranteed practical use, aesthetics and ergonomics.
